

L-861T LED Edge Light

Certified to FAA AC 150/5345-46 (Current Edition)
FAA Engineering Brief No. 67

***Proven snow country performance
without added heater.***

Benefits

- Low wattage - uses 10 watt transformer in most applications
- LED technology = long life
- Blue lens for day recognition
- Rugged, shock mounted solid state components
- Brightness steps like traditional fixtures
- Interchangeable parts with traditional fixture: coupling/clamp band/gasket/column/casting
- Durable powder coat finish lasts longer
- Threaded 1.5" frangible coupling or optional 2" matches existing baseplates/stakes

General Catalog Numbers

216LED-□□-□

Overall Height

14=14"

20=20"

24=24"

30=30"

Other heights available
