

FR CCR Instruction Manual
Addendum 1
Rev 1
MAN-PC01A

The Airport Lighting Company FR CCR product line is tested to and complies with FAA Advisory Circular 150/5345-10 (Current Edition). The Advisory Circular details the following environmental characteristics:

Operating temperature: -40°C to 55°C
Operating RH: 10% to 95% Relative Humidity
Operational Altitude: 0 to 2,000m above sea level

The FR CCR design has been proven in altitudes in excess of 2,000m and will operate in altitudes up to 3,000m.
