

# Airfield Mat Systems

**Football Mat Straight Anchors**

**Solar Panel Strip Mat**

## Application

Airfield Mats are designed to reduce vegetation growth around airfield lighting fixtures, signage and other elevated devices. Mats are made of thick recycled rubber to allow mowing equipment to pass over without the need of hand-held trimmers.

## Key Features

- Thick recycled rubber with rust-proof anchors
- Airfield Mats qualify for Airport Improvement Program (AIP) funding
- Prevents vegetation growth and reduces possible erosion around fixtures
- Reduces labor intensive hand-held trimming
- Environmentally friendly by reducing harmful weed control chemicals and sprays
- Anchoring system ensures edges are not dislodged due to jet blasts, wind or mower operation.
- Manufactured by Airfield MAT Systems

## Ordering Guide

Part Number	Description
FM-1-8	Football Mat, Base Can, 4' x 7", 12" Opening, 8 Anchors
FM-1-8wi	Football Mat, Stake Mount, 4' x 7', 8" Opening, 12" Insert, 8 Anchors
FM-1-8wi-18	Football Mat Base or Stake, 4' x 7', 18" Opening, 18" Insert, 8 Anchors
SM-1	Strip Mat, 25" x 30', 15 Anchors
SM-2	Strip Mat, 25" x 60', 30 Anchors
IN-12	12" Insert
IN-18	18" Insert
A-15	Ten (10) Straight Anchors

# Airfield Mat Systems

## Application

The Airfield Mat can be used with either can-mounted or stake-mounted light fixtures. **Base can mounted (Fig. I).** The FM-1-8 mat has a 12-inch center hole that snugly fits the rim of the base can, allowing direct access into the base can. The FM-1-8wi-18 uses an optional removable 18" insert for additional protection. **Stake mounted (Fig. II).** The FM-1-8wi mat has a smaller 8-inch inner circle with a 12-inch collar insert that snugly wrap around the light post.

Fig. I

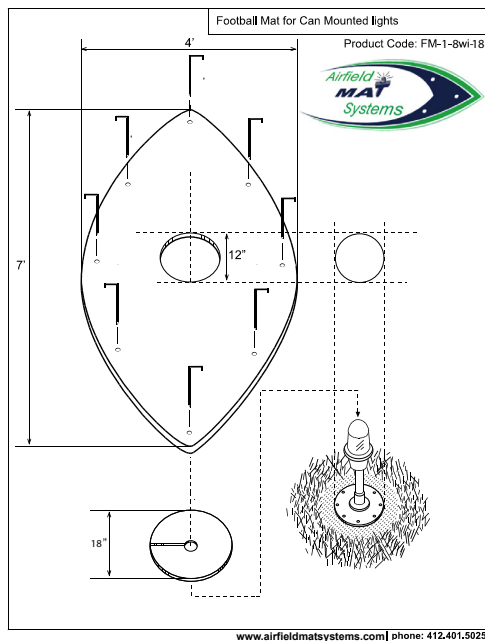

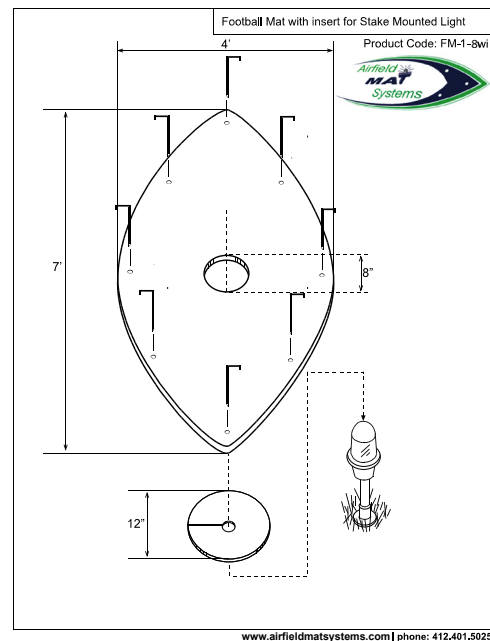

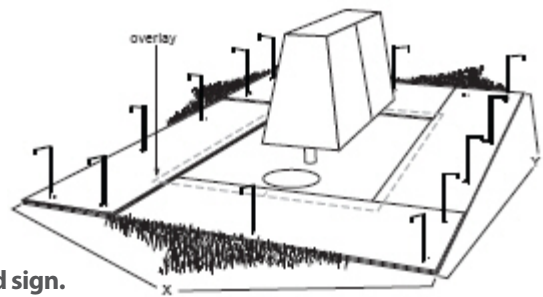

Fig. II

(18" collar insert not shown)

**Football Mat installation: anchor pins overlap the edge of the mat, securing it to the ground.**

**Strip mats around airfield sign.**
